		<b>TRUE BLUE POWER (MID CONTINENT) MD421 Series</b>
Components	<b>C6 Equipment</b>	25-10, 25-20, 25-30, 25-40 For aircraft in the scope of work 25-20 Inspection/Repair/Modification of Upper Support Assy P/N BAM00830 (Part revision A & B) 25-60 Programming and Maintenance Level 2 on Compact and Integra ELT Models 25 Inspection and repair of Avcon Retractable EO/IR Assembly P/N 1817602-101
Components	<b>C7 Engine-APU</b>	71 Cowlings: Removal of Paint, Inspection, Repair and Paint 71 Engine Truss Assembly: Removal of Paint, Inspection, Repair and Painting acc. Approved Data 71 Fire Seals: Repair by Riveting of Doublers acc. Approved Data 71 Engine Vibration Isolation System: Disassembly / Assembly, Testing, Cleaning, Check, Repair of Barry Controls Aerospace Type 5906/95007 and 93880/95596 73 P&WC PT6 Series Fuel Nozzles: Removal / Installation, Cleaning, Inspection, Adjustment, Test 78 Exhausts: Repair by Welding acc. Approved Data 79 Oil Coolers and Reservoirs: Repair by Welding acc. Approved Data
Components	<b>C9 Fuel</b>	28 SMC Auxiliary Fuel Tank; Overhaul of BAM EASA.21J.339 P/N BAM00601C
Components	<b>C8 Flight Controls</b>	27, 55, 57-40, 57-50, 57-60, 57-70 Repairs and alterations of complete aircraft within the scope of work (MOE 1.9) including structural components and parts of such aircraft. 27, 55, 57-40, 57-50, 57-60, 57-70 Repair and alteration of aircraft structural components/parts, not included in the Company scope of work.
Components	<b>C14 Landing Gear</b>	32-40 Inspection/overhaul and replacement of tires and parts belonging to all aircraft/helicopters i.a.w current technical data held by the company. 32-40 Beech P/N 101-8002-3 Limitation, Installation of ice shield 32-10, 32-20 Beech 90/F90/100/200/300/1900 Inspection and Overhaul 32-50 Beech 90/F90/100/200/300/1900 Shimmy Damper Inspection and Overhaul 32 Airbus EC145 Ice Grip Plate: Repair of BAM EASA.21J.339 EPA P/N BAM01011A, BAM01013A, BAM01015A
Components	<b>C20 Structure</b>	53, 54, 57-10, 57-20, 57-30 Repairs and alterations of complete aircraft within the scope of work (MOE 1.9) including structural components and parts of such aircraft. 53, 54, 57-10, 57-20, 57-30 Repair and alteration of aircraft structural components/parts, not included in the Company scope of work. 57-20 Installation/Replacement/Repair of BLR Beechcraft King Air Winglet System
Specialised Services	<b>D1 Non Destructive Testing</b>	Magnetic Particle MT Level II: "Hand Yoke" on all aircraft components for which current maintenance data is held by the company. Liquid Penetrant Level II: On all aircraft components for which maintenance data is held by the company. Eddy Current Level II: On all aircraft components for which maintenance data is held by the company.
