

Operator Console BAM EagleEye 23

BAM EagleEye 23

Operator Console

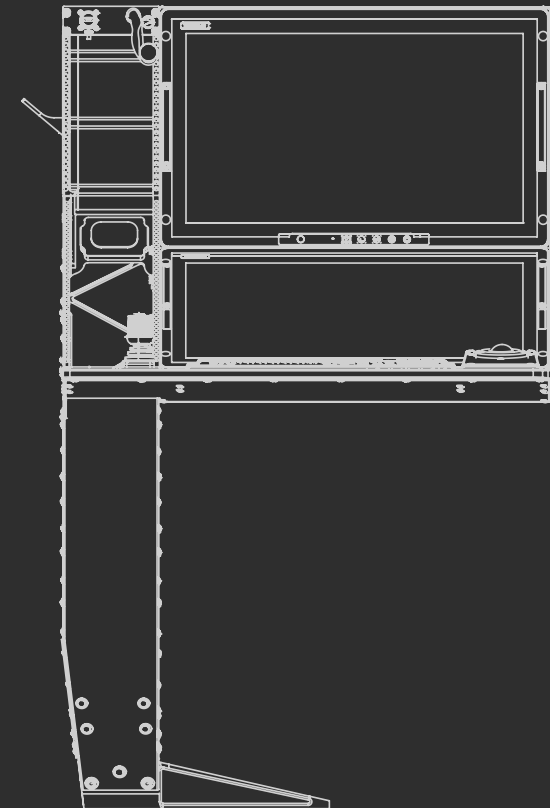

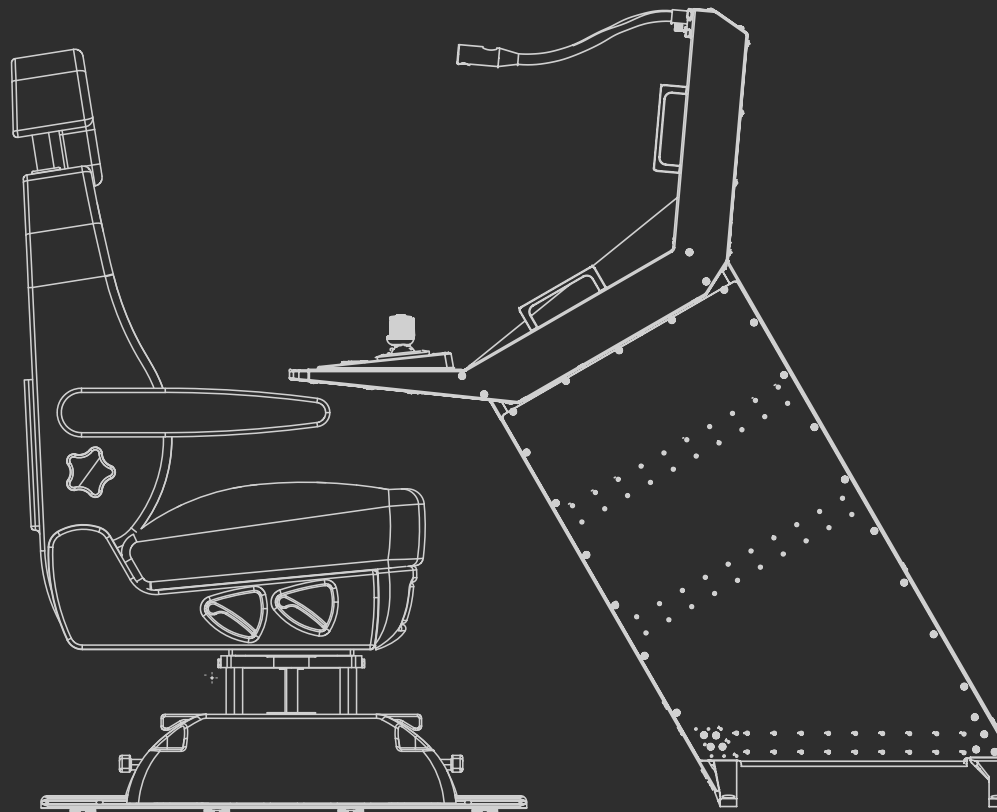

Experience enhanced situational awareness and seamless operation with the Mission System Console. Featuring two large touchscreen displays with layouts for specific missions. It can be provided in LH or RH orientation with the same desk layout.

The ergonomic design and the offset leg provide ample legroom, ensuring comfortable body positioning during operation.

Tailor it to ***your*** operational requirements.

Select the BAM Console

- Can be customized on request
- LH- or RH Console
- Ergonomic design
- Lightweight milled construction
- Easily installed/removed.
- Integrated radio communications

Accessories

The accessories can be adjusted to suit your operational needs and aircraft type.

Tablet Holder

The Tablet holders accommodate a wide range of tablets, are easy to install, and are available in carbon fiber or aluminum.

Large Capacity for DZUS Units

If needed, a larger version of the DZUS compartment can be ordered, creating additional space for more units to meet your operational requirements.

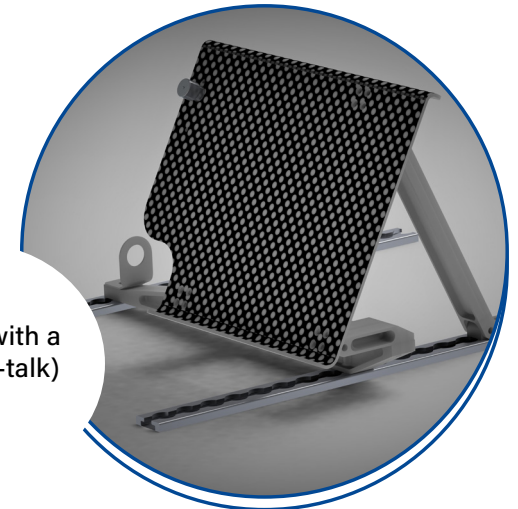

Mount for EO/IR Hand Controller Unit

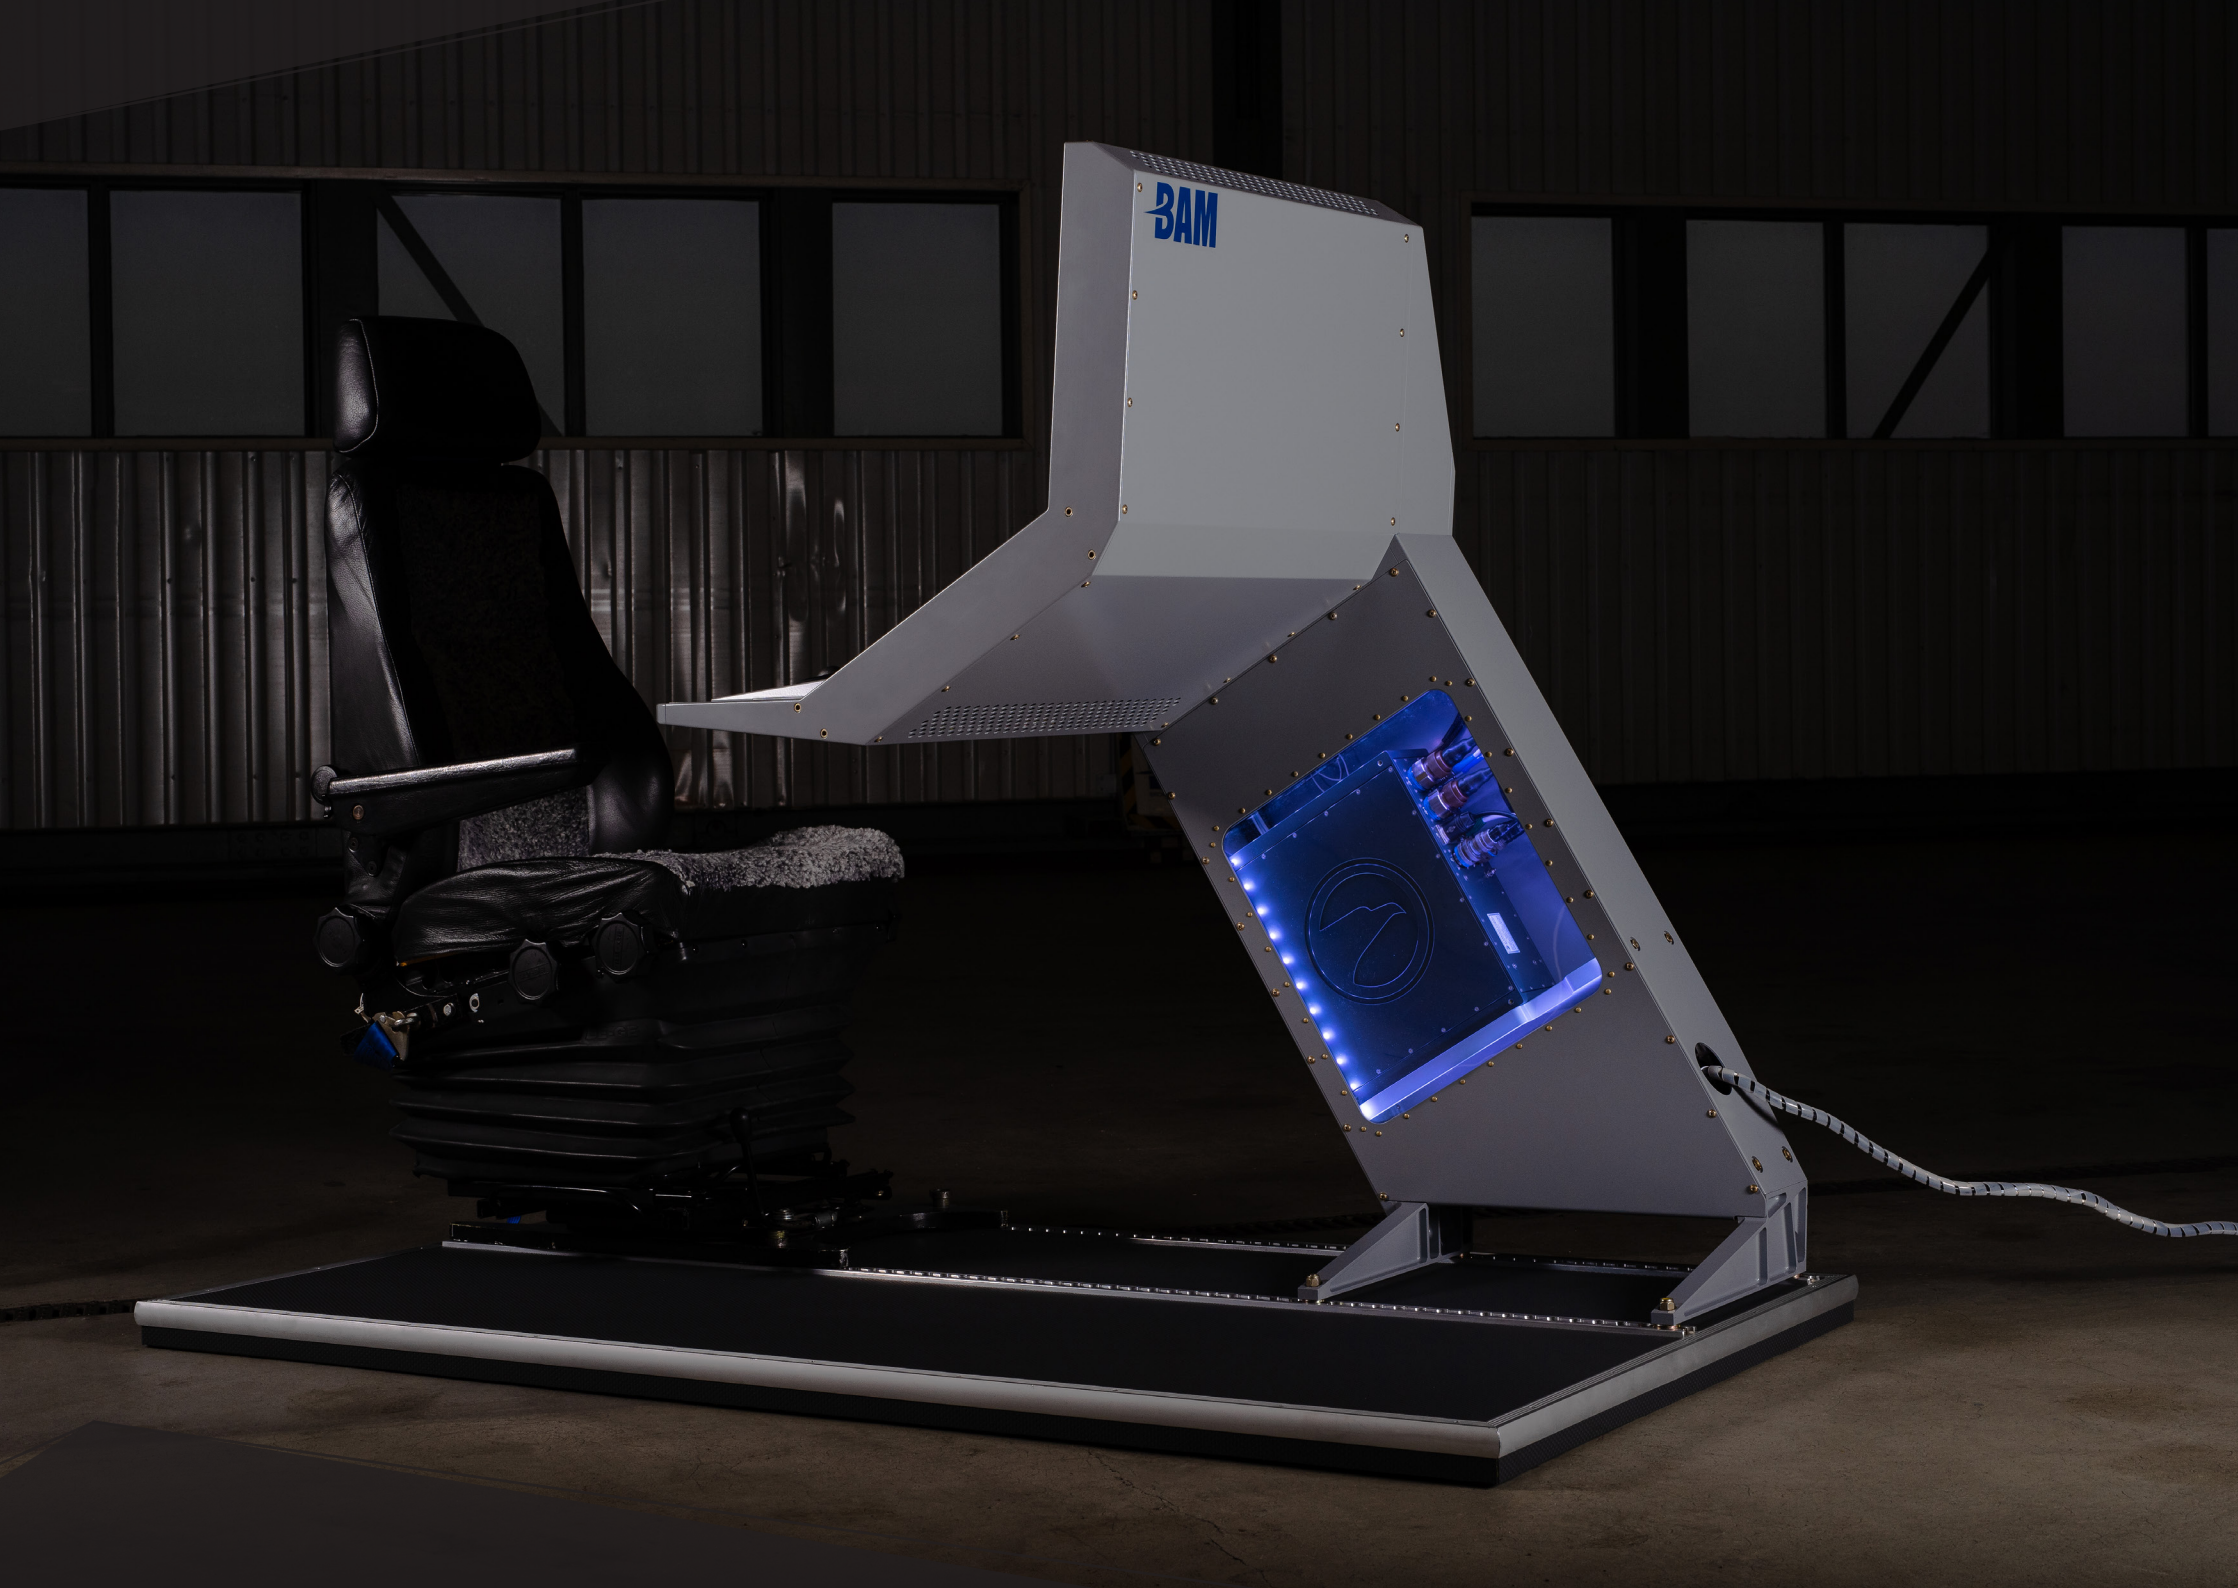

An EO/IR hand control mount can easily be attached to the side of the console.

Variation of Footrests and Seat Rail Attachments

Footrest versions are available with a communication switch (push-to-talk)
